

AyrKing Corporation

Breader/Blender/Sifter

AyrKing offers a manual breadmaking workstation with integrated automatic Blender/Sifter machine. Rotary brush sifter operates without detrimental vibration or agitation. Spirally configured nylon bristles form an auger to eject unwanted dough balls to a waste container. Ingredients are fully blended as brush tumbles breadmaking media before it exits through sifter screen. Unique process prevents dough ball grinding, eliminates usual sifting noise, & blends ingredients as it ejects waste.

INCLUDED ACCESSORIES

- B101 Red plastic lug plug
- B302 White plastic breadmaking lug with hole
- B303 White plastic breadmaking lug without hole
- B325 White plastic lug cover
- B304 White plastic dough ball pan
- B122 Round dip basket, stainless steel wire
- B123 Round dip pot, stainless steel

OPTIONAL ACCESSORIES

- B420 Bun Pan Rack, hooks on back panel
- B241 Swivel casters, four locking 5" (13mm)
- B126 Feathering basket, stainless steel wire
- B124 Round dip pot lid, stainless steel
- B302G Gray plastic breadmaking lug with hole
- B303G Gray plastic breadmaking lug without hole
- B325G Gray plastic lug cover

ADVANTAGES

Sift and blend 30 lbs (14 kg) of breadmaking in 60 seconds!

Rotary auger brush blends, sifts, and ejects dough balls simultaneously

Blending brush action prevents ingredient segregation, unlike vibrating or agitating systems

Quiet, vibration-free operation creates results, not disturbances

Sixty second timed cycle frees labor and saves energy

Raised s/s lip around sifter opening prevents tabletop spills from contaminating sifted breadmaking

Fully enclosed sifter with only four internal parts, reduces dust and allows quick and easy cleaning

Direct drive, steel geared motor & solid stainless steel fabrication provide lasting performance

MODELS

BBS-U-4830 48"L by 30"W table with 2"H rear tabletop backslash

BBS-U-4830-BPC 48"L by 31"W table, 18"H back panel w/ dip basket & Winston clamshell hooks
